E-mail: P.Lhoste@GMX.fr

Software Engineer (GUI¹/Web²/real time)

14 years of experience

Professional Experience

¹GUI : Graphic User Interface. ²Web : CGI, PHP, HTML/CSS, JavaScript... ³CSCS: Software and Computing Services Company (in French: SSII).

1998-2003 :

Software Engineer for **XandMail**, software editor (La Courneuve).

- * Developments in portable C (WinNT/Unix) on a webmail software: e-mail management via HTML interface generated by CGI from Web templates. Using POP3, IMAP4, SMTP, LDAP standards.
- Development of an address book looking like Netscape one, in C++ with MFC.
- Developments in C on the home-brew e-mail software (X.400/Internet) for Windows.
- Development in VBA for Excel of a software translating textual data from Cnasea to Excel sheets, divided by areas, and automated sending of these files by e-mail.
- Writing documents in English or in French, writing install scripts for InstallShield, test scripts for SilkTest, using content management software (CMS): VisualEnabler (CVS-like).

1997:

Software Engineer for Sogetek, SCSC (Sèvres), working for Thomson T&S.

• Follow-up of 1996 development: aggregation and synthesis of projects. Storage of data with Access via Jet 2.5/SQL, data management and display of results with Excel via Ole 2 Automation, all this written in Visual Basic 4 with Windows 3.1, 95 and NT 4.

Intern for Cadic, software editor (Paris).

• Update of a library management software made with Fulcrum SearchServer (client/server document database), accessed via SQL.

1996:

Software Engineer for Sogetek, SCSC (Sèvres), working for **Thomson T&S**.

• Follow-up of 1995 development: translation of Excel 4 macros to Excel 5 VBA (Visual Basic for Applications), software update, connection to PSN6 (project management software).

Software Engineer for **Cojyp**, software editor (Saclay).

• Development on HyperPanel v.4 software.

1995:

Software Engineer for Sogetek, SCSC (Sèvres), working for Thomson T&S.

- Development of a project progress worksheet on Excel 4 (macros).
- Document writing.
- ◆ User help.

1990-1994:

Software Engineer for Alten, SCSC (Sèvres), working for **Thomson** (CNI/RNA & LGC depts), **TRT**, **CGA/Cegelec/Alcatel**, and **Sagem**.

- Specification, design, development (in C and assembly language) and debugging of real time softwares and semi-graphic user interfaces.
- Writing corresponding documents, in English or in French.
- Training of users on created softwares and technical assistance on work environment.

1987-1989:

Study Engineer for I2M, SCSC (Sèvres), working for **Thomson** (Cimsa and Tex depts).

- Specification, design, development (in C) and debugging of real time softwares and user interfaces.
- Writing corresponding documents, in English or in French.

Education & Technical Summary

DEA (Diplôme d'Études Avancées) of **software engineering**, Bordeaux I University (1986).

DUT (Diplôme Universitaire de Technologie) of **electronics and automation**, IUT de Bordeaux (1982).

Training to Windows and X-Window graphic user interface software development, Chambre de Commerce et d'Industrie de Versailles Val-d'Oise-Yvelines (December 1996 to June 1997).

Systems: PC, on MS-Dos, Windows 3.1, 9x, NT 4 et XP. Sun Stations, on Unix, with SunView and

OpenWindow. HP 9000 Stations and Dec Alpha Stations, on Unix, with **X-Window**. Vax, on **VMS**.

Programming for Windows/SDK/MFC/VXCL and X-Window/Motif.

Languages: C, (Visual) C++, (Visual) Basic, Lua, JavaScript, VBScript & VBA, PHP, SQL, Perl, Assembly

Languages (6809, 68HC11, 6800, 6502, 80x86, 680x0), Pascal, Ada.

Softwares: Mastering Microsoft Word (on PC & Mac), Interleaf (on Sun), FrameMaker (on HP), XPress &

PageMaker (on Mac & PC). Knowledge of Designer & **CorelDraw!** (on PC), Illustrator (on Mac) and **Photoshop** (on Mac & PC). Using **Access** & **Excel** (on PC, using macros & VBA). Mastering (X)**HTML**

& CSS, knowledge of XML/DTD & SVG.

Languages: English & French.
